

Finding Medusa is Donna F. Brown's story of an ordinary girl whose extraordinary life takes her from the tumultuous 1968 National Democratic Convention riots in Chicago to 14,000-foot mountaintops and to illness and pain and joy and fame — all in the stagelights of the golden age of rock and roll.

This is the story of making music while living all the realities of life. Donna takes readers to the clubs where the band Medusa built its base and the big west where she found real mountains to climb. Along the way she deals with the realities of aging and illness and loss and discovery.

In 2013, Donna and her bandmate and husband Gary put together a new Medusa. And in a couple years they land a gig at the incomparable South By Southwest music festival in Austin, Texas. And the stage lights come back on for Medusa.

As Gary says in his forward, “This is a journey through Donna’s darkest and brightest moments. *Finding Medusa* is a testament to anyone who wanted to give up, that there is more to life than being beaten and broken... it’s an inspirational book that leaves you cheering that it is never too late to follow your dreams.”
